ii Discussion regarding potential use of SCC focussed on the aim to broaden its potential appeal whilst retaining its original purpose of being a “shelter” for the elderly of the village.

The aim was considered not to be a profit making enterprise but one which served the needs of the community.

Any usage of the facility would not preclude habitués from continuing to use it.eg a coffee morning would not preclude attendance of “regulars”

To that end:

Coffee mornings, small group meetings eg Art Group, Craft clubs, drop in advice centre.

Bearing this in mind, Broadband, electric points, roof windows were discussed.

The need to future proof the building with regard to heating, insulation and making it as eco-friendly as possible was also covered.

iii Suggestion that an evening meeting would enable other WG members to more easily join the meetings.
